

## **ICC CLUBHOUSE REDEVELOPMENT – Newsletter 5**

19th January 2012

Dear ICC Members,

Those who have been following the progress with our extension will have seen our progress, through pictures on the club web site or when passing by the clubhouse. I am pleased to be able to tell you that the shell of the extension is completed, it has a roof in place and that the original pavilion has a complete roof once again.

Our next task is to complete preparations to bring our new large space into service for the club and its members. To this end we have a working party organised by Sam Bourne for this Saturday morning (21st January) between 09:00 – 12:00 noon. All who can attend will be welcomed and there will be hot tea and biscuits available during the morning. Our main objective on Saturday is to lay the damp proofing and insulation in the floor ready for the floor screed to be laid in a week's time, and to tidy up the site, removing as much of the remaining building materials as we can from the grass.

The Management Committee and Re-Development team would like to invite you to attend a communications and consultation meeting next Friday 27th January 2012 at 7:30 pm, so that we can share plans for the internal layout of the club room. To facilitate this I have attached [a plan diagram](#) of the interior of the enlarged clubhouse which I invite you to review, consider and discuss with us at the meeting; we are anxious to share our views with you, understand your views and take input from the membership before finalising the internal layout.

On behalf of the Management Committee and Re-Development team, we look forward to seeing as many members as possible for a discussion, and perhaps a drink, next Friday.

Regards

Chris Sims

On behalf of the Redevelopment Team
